

# Euramax is on your side with a wide range of products and innovations

At Euramax for Mobility, we're committed to delivering innovation and added value to our customers, helping to make holidays more comfortable, affordable, and sustainable. As we celebrate our 55th anniversary and prepare for the years ahead, allow us to talk you through our innovations and product portfolio.

## On your side: our portfolio has a solution for every need

At Euramax for Mobility, we offer a comprehensive selection of alloys, dimensions, paint systems, and design options. In the spirit of being on your side, we have something to suit every requirement and budget. No matter the price point, you can benefit from aluminium's unique properties, including its circularity. The table below provides an overview of our offerings. For us, this is part of what being on your side truly means.

Aluminium (substrate)		Applications and typical thickness	€/m <sup>2</sup>	Kg/m <sup>2</sup>	StrongCoat	PowerCoat	SuperiorCoat	InterCoat
					Basic unicolor	Unleash the power of color	Top scratch resistance	Textured for stylish interiors
<b>EcoLite 1600</b>	Embossed material up to 160 cm. Lightest and lowest cost product	<b>Sidewalls (0.45 - 0.55)</b>	€	1.2 - 1.5	X	X	X
